

Patient Engagement Dental Solutions

Filling in the Gap Where Dental Practices Need It the Most

Your patients want more digital engagement and flexible payment options but making that a reality can be easier said than done. Limited functionality, fragmented systems, and syncing patient and payment data to flow across locations and technology platforms are hurdles that seem nearly impossible to remedy.

But, there is a solution.

We've helped numerous DSO and dental groups move thousands of their practices from disjointed and fragmented billing processes to one seamless payment and communication platform. With RevSpring's Patient Engagement Dental Solutions, dental organizations have the financial visibility and performance metrics needed to drive positive change. You can finally create a seamless patient engagement that delivers the right billing message in the right communication channel at the right moment. Through this method, you will start to see improved patient loyalty and better payment outcomes.

Dentistry with a Personalized Approach

We understand what it takes to create a successful patient experience and how to engage your patients for a positive financial result. We make it personal. We dig into the data to identify your patients' needs and create unique patient pathways that make it easy for them to pay, connect, and keep coming back.

Benefits

- **Answer patient demand** for more digital engagement and flexible payment options
- **Boost collections rates** with a precise payment and communication approach for each patient
- **Reduce costs** with a strategic mix of digital and print patient outreach
- **Support growth plans** with a scalable patient engagement solution
- **Streamline patient communication and payment technology** across multiple locations
- **Improve visibility** across all your locations from one centralized platform

Our approach is strategic, tailored, and maximizes all patient touchpoints in a clear and simple way. We also understand the challenges of managing multiple dental locations and the need to streamline and unify patient communication and payment technology across all your practices.

We've got you covered.

Let us help you increase patient loyalty and collect more payments by creating meaningful, personalized financial journeys for each of your patients. We're on a mission to give you and your patients something to smile about!

Features
